Education

2018 E.C

BSc in Computer Science and Engineering

Bule Hora University

Technical Skills

Frontend

- React.js, Next.js, JavaScript, Tailwind CSS

Backend

- Node.js, Express.js, REST API Development

Databases

- MongoDB, MYSQL

Tools

- Git, GitHub, VS Code

Others

- Responsive Web Design, Software Testing, Agile Methodology

Language

Oromic – Native

Amharic – Fluent

English – Professional working proficiency

MOHAMMED HASEN

Junior Software Developer

Computer Science and Engineering graduate from Bule Hora University (CGPA: 3.51/4.00) with practical experience in full-stack web development. Completed a three-month web development internship at Madda Walabu University, working with Next.js, React, and Tailwind CSS. Experienced in developing web applications using React.js, Node.js, Express.js, and MongoDB, including a team-based Employee Management System. Strong interest in software engineering, backend development, databases, and learning new technologies. Seeking a Graduate Trainee opportunity to develop technical skills and contribute to real-world software projects.

Experience

Nov 2025 – April 2026

Bule Hora University | Bule Hora, Ethiopia

Employee Management System

- Collaborated with a four-member team to design and develop a web-based Employee Management System.
- Developed employee management, attendance tracking, leave management, and departmental reporting features.
- Implemented role-based access control with separate dashboards for Admin, HR, Head of Department, and Employees.
- Worked on frontend and backend development using React.js, Node.js, and Express.js.
- Used MongoDB for database management and storage.
- **Technologies:** React.js, Node.js, Express.js, MongoDB.

July 2025 – Oct 2025

Madda Walabu University | Bale Robe, Ethiopia

Frontend Development Intern (MERN Stack)

- Developed a responsive website for Yetebaberut Beherawi Petroleum (YBP) to present company information and improve access to organizational and service-related information.
- Built interactive, user-friendly web interfaces using Next.js, React, and Tailwind CSS.
- Implemented responsive layouts and tested the website across desktop, tablet, and mobile devices.
- Collaborated with a fellow intern and College of Computing staff, used Git and GitHub for version control, and prepared project documentation.
- Deployed the website to Vercel, making it publicly accessible online.
- **Technologies**: React.js, Node.js, Express.js, MongoDB.
